Reciprocity

Some states have reciprocity agreements that allow licensed barbers and cosmetologists to get a license in another state without needing additional formal training, but such agreements are not common. Consequently, people who want to work in a particular state should review the laws of that state before entering a training program.

PHYSICAL DEMANDS AND SAFETY REQUIREMENTS FOR COSMETOLOGIST AND BARBERS

It is extremely important that you are provided with all the facts about the physical requirements that your future career demands. The following is a list of physical demands you may encounter in this industry.

Body Position: Long periods of time standing are required for cosmetologists.

Hands: Your hands will need protection from chemicals and continuous exposure to water and cleansing agents. Hand care products are recommended for all service professionals.

Back: Minor back stress may be caused by long intervals of standing, sitting or leaning. Please consult your physician or chiropractor if you have experienced back pain in the past.

Chemicals: As a cosmetologist you will be required to work with many different types of products and chemicals. If you currently have allergies or sensitivities to chemicals, please consult your physician with a list of the chemicals you will be exposed to.

Sanitation: Communicable disease can be easily transmitted from one individual to the next. Special attention must be paid to yourself and your client to avoid spreading any disease.

Trade Tools: There are obvious hazards when working with sharp objects such as scissors, razors, clippers, lancets, extractors, etc. Caution must be used when handling any such item.

General Safety: On a daily basis use caution and common sense to avoid entering into any of the following situations: chemical burns, cuts and abrasions, excessive heat from hair dryer, hot water, harmful vapors or fumes, injury to eyes, and physical injury resulting from spilling liquid.

What Barbers, Hairdressers, and Cosmetologists Do

Hairdressers often wash and color hair.

Barbers, hairdressers, and cosmetologists provide haircutting, hairstyling, and a range of other beauty services.

Duties

Barbers, hairdressers, and cosmetologists typically do the following:

- Inspect and analyze hair, skin, and scalp to recommend treatment
- Discuss hairstyle options
- Wash, color, lighten, and condition hair
- Chemically change hair textures
- Cut, dry, and style hair
- Receive payments from clients
- Clean and disinfect all tools and work areas

Barbers, hairdressers, and cosmetologists provide hair and beauty services to enhance clients' appearance. Those who operate their own barbershop or salon have managerial duties that may include hiring, supervising, and firing workers, as well as keeping business and inventory records, ordering supplies, and arranging for advertising.

Barbers cut, trim, shampoo, and style hair, mostly for male clients. They also may fit hairpieces, perform facials, and offer facial shaving. Depending on the state in which they work, some barbers are licensed to color, bleach, and highlight hair and to offer permanent-wave services. Common tools include combs, scissors, straight razors, and clippers.

Hairdressers, or *hairstylists*, offer a wide range of hair services, such as shampooing, cutting, coloring, and styling. They often advise clients, both male and female, on how to care for their hair at home. They also keep records of products and services provided to clients, such as hair color, shampoo, conditioner, and hair treatment used. Tools include hairbrushes, scissors, blow dryers, and curling irons.

Cosmetologists provide scalp and facial treatments and makeup analysis. Some also clean and style wigs and hairpieces. In addition, most cosmetologists actively recommend professional hair care products or salon hair care products.

Overall employment of barbers, hairdressers, and cosmetologists is projected to grow 10 percent from 2014 to 2024, faster than the average for all occupations.

Employment of barbers is projected to grow 10 percent from 2014 to 2024, faster than the average for all occupations. The need for barbers will stem primarily from an increasing population, which will lead to greater demand for basic hair care services.

Employment of hairdressers, hairstylists, and cosmetologists is projected to grow 10 percent from 2014 to 2024, faster than the average for all occupations. Demand for hair coloring, hair straightening, and other advanced hair treatments has risen in recent years, a trend that is expected to continue over the coming decade.

Job Prospects

Overall job opportunities are expected to be good. A large number of job openings will stem from the need to replace workers who transfer to other occupations, retire, or leave the occupation for other reasons. However, workers should expect strong competition for jobs and clients at higher paying salons, of which there are relatively few and for which applicants must compete with a large pool of experienced hairdressers and cosmetologists.

The median hourly wage for barbers was \$11.95 in May 2015. The median wage is the wage at which half the workers in an occupation earned more than that amount and half earned less. The lowest 10 percent earned less than \$8.62, and the highest 10 percent earned more than \$22.79.

The median hourly wage for hairdressers, hairstylists, and cosmetologists was \$11.38 in May 2015. The lowest 10 percent earned less than \$8.47, and the highest 10 percent earned more than \$22.79.

Barbers, hairdressers, and cosmetologists may receive tips from customers. High quality work and customer service usually contribute to greater tip totals.

Many barbers, hairdressers, and cosmetologists work full time, however part-time positions are also common. Those who run their own barbershop or salon may have additional hours. Work schedules often include evenings and weekends—the times when beauty salons and barbershops are busiest. Those who are self-employed usually determine their own schedules.
